INTRODUCTION

Overview of Nova Digital Assets

Nova Digital Assets is a global investment platform that provides private investors with access to diverse asset classes, from real estate and gold to digital currencies, NFTs, and medicinal cannabis. Our mission is to democratize investment opportunities, allowing individuals, businesses, and institutions to diversify and grow their financial portfolios with secure, transparent, and high-performing assets.

Mission

Our mission is to empower investors worldwide by providing them with access to alternative and diversified investment opportunities. We are dedicated to offering high returns, ensuring effective risk management, and prioritizing investor protection. We aim to build a sustainable future for investors through transparency, ethical practices, and long-term financial growth.

Vision

Our vision is to create a financially inclusive world where investors, regardless of experience, have the tools and resources to thrive. We strive to lead the way in offering innovative investment solutions while maintaining the highest standards of regulation and safeguarding investor interests.

Asset Classes

1

Real Estate

Real estate is a long-standing investment vehicle known for its stability and potential for high returns. Nova Digital Assets invests in both commercial and residential real estate, focusing on high-growth markets worldwide. By diversifying across different types of properties, we provide our investors with a steady income stream and capital appreciation.

2

Digital Assets

Digital assets such as cryptocurrencies and NFTs (Non-Fungible Tokens) have gained significant popularity in recent years. We offer investments in leading cryptocurrencies, including Bitcoin and Ethereum, and high-potential NFTs in various industries. Digital assets offer the potential for high returns, though they can be volatile, and they allow for easy global transactions with increased liquidity.

3

Gold

Gold has always been a safe-haven investment, especially during times of economic uncertainty. Nova Digital Assets offers exposure to physical gold, gold-backed securities, and mining stocks. Gold helps diversify portfolios and acts as a hedge against inflation, making it an essential component of any investment strategy.

4 **Crude Oil**

Investing in crude oil allows you to tap into one of the world's most critical commodities. With Nova Digital Assets, you can invest in oil futures, oil companies, and other related assets. Given the global demand for energy, oil investments offer substantial return potential, though they are subject to geopolitical risks and market fluctuations.

5 **Profitable Stocks**

We provide access to stocks in some of the most profitable and promising industries worldwide. Through stock market investments, we offer opportunities in technology, healthcare, green energy, and more. Our professional analysts conduct thorough research to identify high-growth companies that deliver consistent returns over the long term.

6 **Agriculture**

Agriculture remains one of the most vital sectors of the global economy. Nova Digital Assets invests in agricultural commodities, farmland, and innovative agribusiness ventures that focus on sustainable and technologically advanced farming practices. These investments not only support global food security but also provide stable returns to investors due to the ever-growing demand for agricultural products.

7 ————— Medicinal Cannabis

The medicinal cannabis industry is rapidly growing due to increasing legalization and demand for health solutions. Nova Digital Assets invests in cannabis production companies, dispensaries, and pharmaceutical firms producing cannabis-based treatments. With significant profit potential, this asset class offers unique opportunities in the health and wellness sector. It is a relatively new industry, and while it carries some risk, the market outlook remains positive with expansion in various regions.

INVESTMENT PLANS

NDA Silver

Perfect to Get Started

- ✓ 5% Weekly Returns
- ✓ Minimum Investment: \$500
- ✓ Maximum Investment: \$9,999
- ✓ Referral Bonus: 5%
- ✓ 24/7 Support

NDA Silver is an ideal plan for beginners who want to dip their toes into the world of investment. With a relatively low minimum investment requirement, it allows new investors to get started and gain experience with manageable risk.

NDA Gold

Ideal for Growth and Security

- ✓ 8% Weekly Returns
- ✓ Minimum Investment: \$10,000
- ✓ Maximum Investment: \$49,999
- ✓ Referral Bonus: 7%
- ✓ 24/7 Support

The NDA Gold plan is perfect for those with some investing experience who are looking for a more substantial return. With 8% weekly returns, it offers a solid opportunity for portfolio growth while maintaining a balanced risk profile.

NDA Platinum

For Serious Investors Looking for High Returns

- ✓ 10% Weekly Returns
- ✓ Minimum Investment: \$50,000
- ✓ Maximum Investment: \$99,999
- ✓ Referral Bonus: 10%
- ✓ 24/7 Support

NDA Platinum is designed for more experienced investors who want to take on greater exposure in exchange for higher returns. With 10% weekly returns, it allows significant capital to work harder for you, with a higher entry threshold for those looking to scale their investment.

NDA Mega

Maximized Returns for Large Investments

- ✓ 15% Weekly Returns
- ✓ Minimum Investment: \$100,000
- ✓ Maximum Investment: \$499,999
- ✓ Referral Bonus: 15%
- ✓ 24/7 Support

The NDA Mega plan is the ultimate choice for those seeking aggressive growth. With 15% weekly returns, this plan is tailored for high-net-worth individuals who want to invest large sums of money and reap significant rewards.

NDA Mutual Funds

Premium Option for High-Stakes Investors

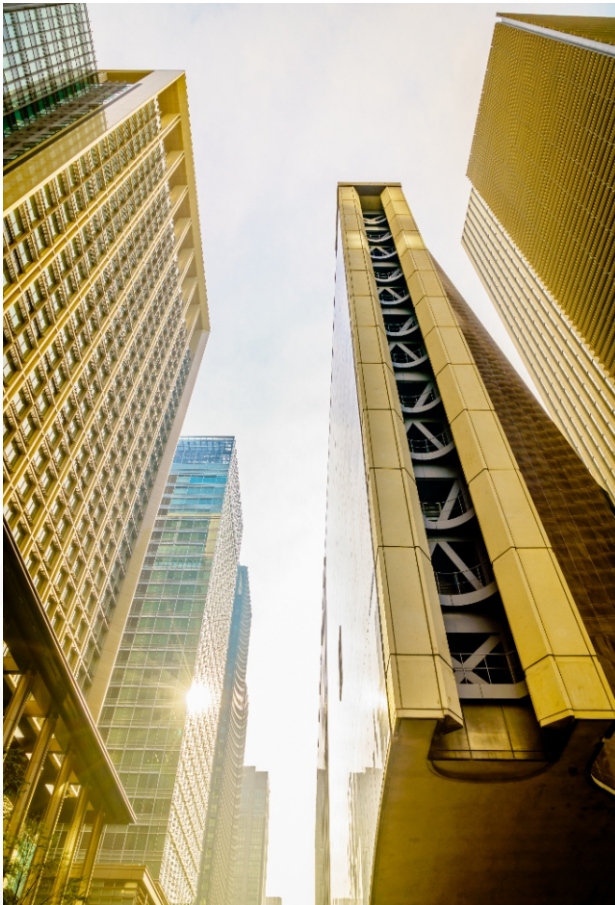

- ✓ 20% Weekly Returns
- ✓ Minimum Investment: \$500,000
- ✓ Referral Bonus: 20%
- ✓ 24/7 Support

NDA Mutual Funds offer a diversified, high-yield investment opportunity. Aimed at seasoned investors, this plan allows for large-scale investment with the highest potential returns. With 20% weekly returns, it is designed to grow significant wealth over time.

HOW IT WORKS

Historically, only banks and institutional investors have been able to make money by investing in business and consumer credit. Nova Digital Assets now opens this asset class to private investors and makes it accessible to everyone – no matter if you're an experienced investor or just starting.

Diversified Investments

At Nova Digital Assets Investment, we stand out from the rest as we don't solely rely on market trends to make investment decisions. Instead, our investments are based on a combination of professional experience and diversity.

We offer alternative financing options to a wide range of clients, including individuals, small and large businesses. Our investments are diversified, with a focus on areas such as gold, medicinal cannabis, digital assets, and more. We conduct extensive fundamental analysis and employ professional risk management strategies to ensure the stability of our investments and maintain a strong financial standing.

Furthermore, we provide funding to several projects and, in turn, receive a share of the initial sales generated by the project.

How It Works

Choose Your Preferred Plan

Choose from our carefully thought-out plans, designed to make life easy and profitable.

Start Earning Returns on Your Investment

Your investments generate returns based on your selected plan and investment amount.

Accelerate Your Returns

Many investors choose to reinvest their returns so their money can keep working. Given enough time, earnings can grow exponentially thanks to the power of compound interest.

INVESTOR PROTECTION

Regulatory Compliance

Nova Digital Assets operates under strict financial regulations, including MiFID II in the UK. These regulations ensure investor protection by holding us accountable to high standards.

Safeguarding Investor Assets

Investor assets are held separately from Nova Digital Assets' own funds. This ensures that investors' funds are protected in safeguarding accounts at licensed EU banks.

Investor Compensation and Protection

Investors are protected for up to \$100,000 under the investor compensation scheme. We maintain accurate records and conduct regular reconciliations to minimize risks and safeguard your investments.

LIQUIDITY & INVESTMENT WITHDRAWAL

Cashout Process

We aim to make cashing out your investments as seamless as possible. Withdrawals are processed swiftly, and you can cash out at any time, subject to market demand.

Average Cashout Times

In the last 30 days, our average cashout time has been completed in just 85 hours. This ensures that you can access your funds without unnecessary delays.

MANAGING INVESTMENT RISK

Types of Risks

While investing offers opportunities for growth, it also comes with risks. These include market fluctuations, economic downturns, financial crises, and geopolitical events.

Risk Management Tools and Strategies

Nova Digital Assets provides tools to help investors manage risk. By understanding your risk tolerance and using our risk management strategies, you can make informed decisions to protect your investment. However, investing is never risk-free, and there is always a possibility of losing part or all of the invested funds.

CUSTOMER REVIEWS

Andrew Milton

"I highly recommend Nova Digital Assets trading if you really want your money to work for you. Great people to deal with: very professional and offer a fantastic level of personal customer service."

Donny Glenn

"I am happy to look back on investing with Nova Digital Assets Trading these last four years. You guys have always been outstanding – extremely conscientious and ethical in all your dealings."

Alonso Ortiz

"Thank you for taking such good care of my money and contributing to my success. I am very impressed with the process and your efficiency of execution in investment and profit making."

Olivia Brayden

"With the level of diligence, I trust Nova Digital Assets Trading and will keep working with you guys."

Kimberley Clark

"This is a thank you note for all the hard work researching and then bringing us these great profits. You guys are the best."

Anthony Rosewell

"You have inspired me to get back into the investment market after years of staying on the sidelines."

OUR TEAM

At Nova Digital Assets, we pride ourselves on having a highly skilled and experienced leadership team dedicated to driving the success of our platform. Below are some of the key figures who help guide our vision.

Michel Pettigrew

Executive Chairman

Michel Pettigrew has been a Director of Nova Digital Assets since its incorporation in 2008. As Executive Chairman, Michel plays a critical role in overseeing the company's strategic direction and overall operations. His extensive experience and leadership have been instrumental in building the foundation of Nova Digital Assets and driving its growth in the investment space.

Andreas Halvorsen

Senior Vice President & Head – Technology

Andreas Halvorsen joined Nova Digital Assets in 2012 and currently serves as Senior Vice President and Head of Technology. Andreas is responsible for overseeing the technological infrastructure of the platform, ensuring its efficiency and security. His leadership in technology helps keep Nova Digital Assets at the forefront of innovation in the financial services industry.

Bianca Lucia Vos

Director of Finance – Product Development

Bianca Lucia Vos has been part of Nova Digital Assets since its founding in 2015. As Director of Finance – Product Development, Bianca leads efforts in financial strategy and the development of investment products. Her deep understanding of finance and her role in shaping the company's offerings are key to ensuring the long-term sustainability and profitability of the platform.

GET INSIGHTS ON INVESTMENTS

We offer regular updates and insights on your investments to help you stay informed. Our transparent system allows you to track performance and stay on top of your portfolio at all times. We strive to help you make profitable investment decisions by providing clear and up-to-date information on all your holdings.
